Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claims 1-7 and 23-27 are rejected under 35 U.S.C. 102(e) as being anticipated by either Miki (U.S. Patent No. 7,074,550) or Toyoda et al, (U.S. Patent No. 7,115,356).

Each of Miki and Toyoda et al. discloses a color photographic element comprising a support having thereon at least one light-sensitive silver halide emulsion layer or non-silver containing light-insensitive layer, characterized in that at least one layer of said material contains a heterocyclic compound other than an imidazole, said heterocyclic compound having either one or two hetero-atoms in the ring or ring system, wherein the speed/sensitivity of the photographic element containing said heterocyclic compound is higher than it would be compared to the same photographic element without said heterocyclic compound. Please refer to:

Miki: formula aa-2 (column 19, line 10), formula aa-4 (column 19, line 20), formula aa-14 (column 19, line 65); and

Toyoda et al.: formula aa-2 (column 10, line 65), formula aa-4 (column 11, line 10), formula aa-14 (column 11, line 55).

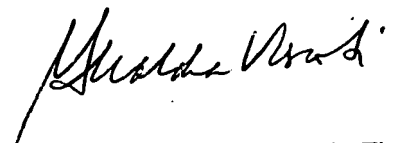

Allowable Subject Matter

3. Claims 8-22 are objected to as being dependent upon a rejected base claim, i.e., ultimately claim 1, but would be allowable if claim 8 is rewritten in independent form including all of the limitations of the base claim and any intervening claims.
